Office Documents Viewer (Pro) Info apk Unduh Dipercepat hingga 200% dengan dFast Torrent Cloud™. Nikmati layanan download tercepat dengan dFast. Bagaimana cara kerja dFast? dFast adalah toko aplikasi yang benar-benar terbuka, tanpa batasan regional atau negara tertentu. Plus, Anda tidak perlu melalui proses pendaftaran atau langganan apa pun di sini. Bahkan, Anda bahkan tidak memerlukan akun Google Play. Dan, selain mengizinkan unduhan aplikasi dan pemasangan APK dari server kami sendiri; dFast juga mendeteksi XAPK dengan file OBB tambahan. Apa yang membuat dFast berbeda dari yang lain? Apakah dFast mengenakan biaya? Apakah dFast aman? (formerly Mobile Document Viewer)Small and fast document viewing application for Open Document Format (OpenOffice, LibreOffice), OOXML (Microsoft Office) and other productivity document formats. It allows opening office productivity application documents, like text files, spreadsheets or presentations, located in the filesystem, e.g. on sd card, as well downloaded documents, files on Dropbox, Box, or documents files attached to an email.Additional features:- zooming in and out of documents- searching inside documents- finding documents containing given words via a full text search across all text documents- copying text from documents- reading text documents (.odt, .sxw, .docx, .doc) aloud via Android's text-to-speech functionality- printing documents via Google Cloud Print- day/night mode (requires Android 4.0 or higher)The following file formats are currently supported:- OpenOffice 2.x, 3.x, 4.x and LibreOffice Open Document formats: .odt (Writer), .ods (Calc), .odp (Impress) - OpenOffice 1.x formats: .sxw (Writer), .sxc (Calc (no support for embedded images)- Microsoft Office 2007 formats: .docx (Word), .xlsx (Excel), .pptx (Powerpoint)- Microsoft Office 97 formats: .doc (Word, plain text extraction only), .xls (Excel, plain cell values)- PDF (experimenal on Android 4.4 and lower, needs to be activated in the app settings)- ePub books- Other formats: RTF, HTML, .txt (plain text), .csv (comma-separated values), .tsv (tab-separated values)Please note that some restrictions apply for viewing documents:- Displaying the documents is done via a conversion to HTML, which is why the document will look differently than if viewed with a desktop office productivity application- Large spreadsheet documents may take some time to open, or sometimes not open at all- When displaying images, only those images will be shown where the image format is supported by the Android browser- Password-protected Microsoft Office docs cannot be openedFull version. Internet access permission required in order to be able to display external images in ODF documents.If you are smart and you like this app, please rate it. If you are smart and don't like it, please send me an email to tell me what should be improved. Not so smart people may simply give a bad rating and/or use swear words in the comments and/or complain about "missing" features the software never promised to have... Array Office Documents Viewer (Pro) Mod Info apk Penguduhan berkecepatan tinggi melalui dFast. Dioptimalkan untuk file besar. Deskripsi: Aplikasi kecil dan cepat untuk melihat dokumen untuk Format Dokumen Terbuka (OpenOffice, LibreOffice), OOXML (Microsoft Office) dan format dokumen produktivitas lainnya. Ini memungkinkan Anda untuk membuka dokumen aplikasi untuk produktivitas kantor, seperti file teks, spreadsheet, atau presentasi yang ada di sistem file, mis. Ke kartu SD serta dokumen yang diunduh, file di Dropbox, Box atau file dokumen yang dilampirkan ke email . Fitur : + Memperbesar dan mengurangi dokumen + Cari dalam dokumen + Menyalin teks dari dokumen + Cetak dokumen melalui Google Cloud Print + Mode siang / malam (membutuhkan Android 4.0 atau lebih tinggi) For those of you who are looking for a simple app for viewing Office documents and other text file, this amazing mobile app from Joerg Jahnke will certainly make a great tool for you, as it comes with an intuitive and user-friendly interface, together with many convenient and accessible features that you can immediately make uses of.Feel free to use the app to scan your system to look for all readable materials. Make use of the app to open your Open Document Format, OOXML format, and many other documents available on the Android system. Feel free to make use of the app and its many features to never have to use separate apps for reading documents ever again.Learn more about this awesome mobile tool of Office Documents Viewer and all of its amazing features with our comprehensive reviews.What does it do?With Office Documents Viewer, Android users will have a simple and convenient text viewer app on their mobile devices, which should allow them to freely read and customize their reading experiences on the go. Make uses of convenient organizing and reading features to set up your offline office document viewer for the best experiences.Use the app to access all different office files from different formats that are currently available on your system. Scan for files automatically or manually browse the storages for certain documents that you can easily read. Make use of the smart search option to look for documents using the content inside. Have access to cool filters and sorting options that will help narrow down the long lists of text documents. Make uses of the convenient and accessible reading interfaces with many user-friendly features and utilities. The list goes on. RequirementsFor those of you who are interested, you can now enjoy the free version of Office Documents Viewer on the Google Play Store, which should be available for all Android users to enjoy without having to pay anything. Here, the free app provides many of its features which you can immediately make use of. Just keep in mind that it'll still come with ads, and if you wish to unlock the premium version, you'll need to pay for the app.As for the in-app features, most of them will require you to provide Office Documents Viewer with certain access permissions, which are needed to ensure their complete functionality and features. So don't forget to accept the prompting request upon entering its home menu.Also, it's highly recommended that you have your mobile devices updated to the latest firmware versions, preferably Android 5.0 and up, which will greatly improve the in-app stability and its overall compatibility with your system.Awesome featuresHere are all the exciting features that the app has to offer:Intuitive app UI simple featuresWith Office Documents Viewer, Android users will have the intuitive app UI and accessible features, which will let them easily look for all documents and start reading them on the go. Access both your internal and external storages, so Office Documents Viewer can automatically load up files for you to read. Select and start viewing the content on the go.Work with all documents on your devicesOffice Documents Viewer users can now work with all text documents available on their Android devices, including OpenOffice and LibreOffice of any versions and formats. Access your Microsoft Office 2007, 97, and later versions without any troubles. View PDF, ePub, RTF, HTML, TXT, CSV, TSV, and many other common file formats without having to switch apps. Office Documents Viewer will make a great all-in-one document viewer app for your Android devices.Scan files automatically or manually browse the storagesFor those of you who are interested, you can now easily scan files automatically or manually using Office Documents Viewer. Here, by providing the app with complete storage access, it'll automatically browse and display text files that're available on your system. Or alternatively, you can also access the built-in file browser to look for text files manually.Smart search option to easily look for the certain documentsTo help you look for text documents on the system, Office Documents Viewer also provides the smart and powerful search option for mobile users. Here, you can choose to find documents using the standard keyword searches. Or make use of the text search option to let Office Documents Viewer scan the content of each document for certain keywords, which will greatly improve your search results, especially if you can't remember the name of the files.Convenient filters and sorting optionsFor those of you who are interested, you can now enjoy the convenient filters and sorting options, which will help you filter the long lists. Choose to look for files by file types, filter them by directory, name, open or modification dates, and more. The different and convenient options will allow you to easily access all your files on the go.Have access to your Recent and Favorites documentsTo make the app more accessible, Joerg Jahnke also features the Recent and Favorites tab for your documents. Simply select any of them to browse files that you've recently opened or those you've added to your Favorites collection.Return exactly to where you leftWith Office Documents Viewer, Android users can enjoy convenient reading experiences, as it allows you to return exactly where you left off. Feel free to make uses of the awesome mobile application to save the last scaling and scrolling values of your certain documents upon exiting. As a result, you can let the app automatically restore these values once you enter it the next time. This will take you back to the exact pages with the same scaling values. Enable this feature to enjoy seamless reading experiences in Office Documents Viewer.Override with system monospace fontWith this powerful mobile application, Android users can even override the documents with monospace fonts, which will help keep the text and documents with their original formatting.Convenient reading experiences on all documentsHere in Office Documents Viewer, Android users can enjoy the convenient reading experiences on all of their documents. Simply choose to zoom in and out of the documents on the go using your convenient touch actions. Select and copy texts from documents without any troubles. Or you can select text and enable the Read Aloud feature to let it read your documents using Android's text-to-speech functionality. The printing option is also available via Google Cloud Print, if you ever need to select and print your text documents in Office Documents Viewer.Feel free to customize your reading interfacesFor those of you who are interested, you can now freely customize your reading experiences in Office Documents Viewer, using many provided settings. Here, the app allows you to manually keep the screen on or automatically enable the feature to never have to touch to keep the screen on. Make uses of the provided settings to show or hide away the navigation, search, zoom options, and so on.And most importantly, the awesome app will now allow you to access your documents in Day and Night mode. Choose to work with Light theme to enable better visibility of the app during the day. And enable the Dark mode to protect your eyes whilst viewing documents in the dark.Enjoy the free and unlocked app using our modIf you're interested in this awesome mobile application of Office Documents Viewer but don't wish to pay for ads and in-app purchases, you might want to consider the modded version of the app on our website instead. Here, we offer the unlocked application with removed ads and unlimited features, which should allow you to make the most of it without having to pay. All you need is to download the Office Documents Viewer Mod APK, follow the given instructions, and you're good to go.Final verdictsWith this awesome mobile application of Office Documents Viewer, Android users will have themselves the fully-featured and all-in-one office reader app for all document and text files on their system. Simply enter the app and navigate through the different documents presented in different menus. Select and start reading your many text files on the go.
