Going on a road trip this weekend? Aside from making sure your vehicle is road-trip ready (tires, brake fluid, and engine oil levels checked), you can also enjoy an added performance boost by fueling up with Shell V-Power at a discounted price. When you gas up at participating Shell stations on Fridays, Saturdays, and Sundays until November 13, you can get Shell's best performance fuel at the price of Shell FuelSave. This promo is open to 4-wheeled and 2-wheel Shell GO+ members. Here's how to avail of the promo: Shell GO+ app members can enjoy this promo at participating station every Friday, Saturday, and Sunday until November 13. Customers need to meet the Shell V-Power purchase requirement to avail of the promo: P2,000 single receipt of Shell V-Power Gasoline, Racing, or Diesel; for 4-wheeled customers P250 single receipt of Shell V-Power Gasoline or Racing; for 2-wheeled customers. Once met, customer can avail of the price offers: Shell V-Power Gasoline for the price of Shell FuelSave Gasoline, Shell V-Power Racing for the price of Shell V-Power Gasoline, Shell V-Power Diesel for the price of Shell FuelSave Diesel. The price offer will only be applied if the station has both Shell FuelSave and Shell V-Power Gasoline or Diesel products. Fuel prices will be based on the same Shell station where customer fueled up. Discount may vary each weekend due to price changes. Discount will automatically be given upon payment of transaction. Promo is valid for cash, credit card, and mobile wallet transactions only. PO, Bulk, and Fleet account customers are not included in this promotion. Shell V-Power Gasoline formulation is boosted and contains 3x more cleaning and friction-reducing molecules than Shell FuelSave. It delivers better engine performance, power, and efficiency than the already efficient performance that Shell FuelSave provides. Fuel pumps. INQUIRER FILE PHOTO/CEBU CITY, Philippines Local oil companies here have announced a significant increase in the prices of fuel effective Tuesday, January 30, 2024. As a result, motorists in Cebu City will be facing a hefty increase in the prices of fuel products on the first week of February. This marks the fourth consecutive week of price increases for this year. Oil companies relayed in separate advisories that the prices of gasoline will be increased by P2.80 per liter. In the same manner, diesel will be going up by P1.30 per liter. Meanwhile, the price of kerosene will be up by P0.45 per liter. The price increase was attributed by the Department of Energy (DOE) Oil Industry Management Bureau to the declining crude stockpile of the United States, among others. In the previous week, gasoline prices climbed up by P1.30 per liter while the price of diesel increased by P0.95 per liter. The following are the fuel prices in some gas stations in Cebu City as of January 30: Shell Mobility Gas Station (Jones Avenue) Fuel Save Gasoline P64.25, V-Power Gasoline P72.68, Fuel Save Diesel P59.10, V-Power Diesel P70.14, Shell Mobility Midtown Mango Fuel Save Diesel P59.10, V-Power Diesel P70.55, Fuel Save Gasoline P64.25, V-Power Gasoline P73.25, V-Power Racing P74.79, Petron Gas Station (V. Rama Avenue, Cebu City) Diesel MAX P58.15, XTRA Advance P63.30, XCS P64.20, Gaas P74.52, Blaze P69.70, Shell Gas Station (Natalio B. Bacalso Avenue, Cebu City) Fuel Save Gasoline P64.25, V-Power Gasoline P73.45, Fuel Save Diesel P58.30, V-Power Diesel P69.34, V-Power Racing P75.29, Caltex Gas Station (T. Padilla corner M. Cuenco Avenue) Diesel P63.44, Power Diesel P64.94, Silver P69.15, Platinum P71.05. MANILA: With the new and improved Shell V-Power, motorists now have another reason to visit Shell, as it cleans 100% of performance-robbing deposits and prevents future buildup on vital engine parts. Removing these deposits can improve engine performance by up to 100%. Shell V-Power will be made available to most Shell forecourts and will be rolled out throughout 2023. Shell Philippines claims that with continued use, V-Power can restore engine to almost new and clean 100% of critical engine parts. Shell V-Power was launched at The Fifth at Rockwell in Makati City, and Shell Fuels Scientist for Asia Pacific Andreas Schaefer spoke about the product's latest developments. Formulated with powerful cleaning agents that can remove deposits from key fuel system components and restore up to 100% engine performance. Vehicle manufacturers strive to increase modern vehicles' performance and efficiency. More efficient engines require fuels to perform under tougher operating conditions, exposing them to gunk buildup and corrosion over time. With that in mind, Shell V-Power has been developed to work even more effectively even in challenging conditions, Schaefer said. We are always looking to ensure we deliver our best ever products and services for our customers. That's why we are proud to launch the new and improved Shell V-Power to help our customers make the most of their journeys on the road" said Pilipinas Shell Head of Mobility Marketing Arvin Obmerga. Shell V-Power, the company's best-ever performance fuel for cars, has been in development for more than five years. This latest development is consistent with Shell's mission to improve life's journeys through an evolving range of fuels and a retail experience that prioritizes convenience, quality, and choice for its customers. The Philippines is one of the first markets to launch the new and improved Shell V-Power with further roll-out planned for 2023. Head over to the nearest Shell mobility station to fill up your tank with the new and improved Shell V-Power. For more details, visit www.shell.com.ph/ShellVPower.
