Users browsing this forum: No registered users This may not be as "cool" as 99% of the PC games but still it's a "good" thinking/strategy game. Unfortunately it's frustrating at times (losing the level because you didn't have 2000 more credits for example) so MAF if there's any chance to make a money trainer that would be great (or if you could point me to how i could find the money address using Cheat Engine which i've been unable to). Thanks. Why do people keep requesting the same games again and again and send other requests way back? Gimme a break... MAFFFF must i donate to get some traction for this game ? Well it's official only CheatHappens has hacked this game and they are asking double the money this game is worth....LOL You must log in or register to reply here. can someone make a trainer for this game, I have it but I can not move a certain point, and normal cheat codes do not work, besides the megatrainer MDF only gave the wooden code, the rest ta blocked by premium, which it is useless to me I need something beyond the resources leave the troops in god mode because of phases only army, and the fire immune buildings with one that when I complete catches fire and destroys all the resources to complete the goal! is one of the best strategy games I know but I can not complete two missions that keep me locked, and I found no one with competence to do this trainer! why nobody does a trainer for this game? I shit on steam and'm stuck in some missions! MRantfun why u not do this trainer? It may be the same codes of Stronghold Crusader 2! God mode, infinite resources, infinite gold! is three years I search on the internet a trainer for this game but mainly seemed that nobody has competence for it! i have the Steam version 1.0.22616 plz make a trainer is so hard and strong do a trainer for this game? more one year and nothing for this good game!
