We went on a family mood, including parents in law and our two babies. I have to make clear that the experience with babies and baby carriers is not nice and comfortable. Parking is a bit far and surface are not for baby carriers. There are not baby changers at the toilets. We kind of imagine this not "baby-friendly" condition. The visit to the restaurant has to be enjoyable since the very beginning, even to park the car and to walk to the restaurant is amazing as it is located at "Matices hotel" a one in a kind hotel on an agaves field with the rooms made out of "big barrels". To get to the door of the restaurant you need to go through a tequila cava. There are some huge steps too with no ramps, also I don't recommend this place for wheelchairs. The main room at the restaurant is massive. Staff is nice and friendly. The menu is good and very Mexican. Prices are related to the great and different experience received. Dishes presentation could be improved but the taste is good. Cocktails are very basic with no author drinks available. If you like to try different experiences and you can afford a meal surrounding +- \$500 MXN per person, please make a reservation and visit this place.
