Set reminders for upcoming shows and movies. - Smarter Search: Find your favourites faster with enhanced filters and category tabs. - Jeeto Dhan Dhana Dhan: Play along during live matches and win exciting rewards in this interactive cricket experience! Hotstar, now with Disney has some of the best shows to offer. 3 stars are all for the content provided.But there are many issues with this app with respect to the user experience.For one, do let us know the selected resolution, low, medium and high makes no sense and makes it difficult to predict how much data would be used by streaming a episode.Secondly, the iPad app keeps logging me out, this did not use to happen before and is a new issue. I use my Facebook credentials to log-in so you can look into this. Lastly, do bring the skip intro feature. Also, when using on a desktop screen, whenever I go to the next episode, the screen should automatically go into full screen mode if that was pre selected We can assist you with clarity on this issue. Please write to us at hello@hotstar.com The content they have is good but how the new updates on app have disrupted it the entire oit experience is worst. I'd also written to the hotstar team to bring back the watchlist option which was on the previous version on app that allows a user to add individual episodes to the watchlist. That was very simple and easier way to navigate through any particular episode. But after the new update that came in March, this feature has been disabled. You can now only add the entire series of any show to the watchlist but it is not linked to your identity: Location Contact Info Diagnostics Privacy practices may vary based on, for example, the features you use or your age. Learn More Developer Website App Support Privacy Policy (Catch all the Business News, Breaking News, Budget 2025 Events and Latest News Updates on The Economic Times.) JioHotstar, which combines JioCinema and Disney+ Hotstar content, has been officially launched following a series of teasers. The new streaming platform will provide a wide range of content from both domestic and international studios. For those unfamiliar, JioHotstar is a joint venture formed in November following the merger of Viacom18 and Star India. The new platform now provides over 300,000 hours of content, which includes blockbuster movies, popular TV shows, and live sporting events. It is now one of the largest streaming platforms, with over 50 crore users. Existing subscribers will be able to log in with their old credentials. Additionally, new subscribers will be able to choose from Mobile, Super, and Premium plans. Also read: iQOO 12 available with Rs 9,000 discount on Amazon: Check deal details here Mobile Plan: Rs 149 for 3 months, Rs 499 per year (ad-supported, HD streaming on 1 mobile device). Super Plan: Rs 299 for 3 months or Rs 899 for a year (ad-supported, FHD streaming on 2 devices). Premium Plan: Rs 299 per month (web purchase only). Rs 499 for three months, or Rs 1,499 per year (ad-free except for live content and 4K streaming on four devices). Also read: Google Pixel 9 available with Rs 9,000 discount on Flipkart: Check deal details here The platform will support 10 Indian languages and offer content in a variety of genres such as movies, TV shows, anime, documentaries, and live sports. Users will have access to content from Disney, NBCUniversal, Peacock, Warner Bros, and other sources. Users will be able to watch IPL, WPL, and ICC events, as well as other international events, in 4K. The platform also includes a variety of AI features such as real-time analysis, multi-angle view, and more. Jiocinema and Disney+ Hotstar have officially joined hands to bring a new OTT platform – JioHotstar. The new platform, according to the announcement, will cater for content in 10 languages. In addition to content from the two merging companies, the platform will feature titles from various international studios and streaming services. JioHotstar will also aggregate content from the likes of NBCUniversal Peacock, Warner Bros, Discovery, HBO and Paramount, which is something no other streaming service offers at the moment. JioHotstar is currently free to access, which means users can watch the content without a subscription. However, movies or series will show ads in between. This is a similar strategy that Jiocinema was using before the merger. But for the ad-free experience, the platform has confirmed that subscription plans will be available for users who want a higher resolution streaming, starting at Rs 149 per quarter. Let’s delve deeper into the pricing and subscription plans. JioHotstar launched in India: Subscription plans and pricing detailsJioHotstar has shared that the app offers two variants of subscription: Super and Premium. The key difference here is that when you subscribe to the Super plan, you will get all the premium content but with ads. The Premium plans aims to offer ads-free experience. If using on mobile, users can subscribe to the JioHotstar app for Rs 149 per quarter, which means it will need a renewal every 3 months. You can also buy the plan for Rs 499 per year. This plan will let you use the platform only on one device at a time. For mobile: Rs 149/ 3 months and Rs 499/year. Other than this, JioHotstar offers a minimum of Rs 299 per quarter. The Super plan (with ads) starts at Rs 299 per 3 months and Rs 899 per year. The Premium plan (without ads) is priced at Rs 299 per month, Rs 499 per 3 months and Rs 1,499 per year. Super plan - Rs 299/3 months and Rs 899 per year Premium plan - Rs 299 per month, Rs 499/ 3 months and Rs 1,499/ year It is noteworthy that with the Super plan, you can access content on 2 devices at a time and Premium works for 4 devices at a time. For Jio users, JioHotstar Plan activation through Jio recharge is an automated process. As soon as the users recharge their Jio numbers with vouchers, JioHotstar subscription is activated on their number within a few minutes. Users can then login to the Web or App with their Phone number, validate OTP and enjoy the content. In case your subscription is not active, do reach out to Jio Support team to check the status of your activation.JioHotstar sports livestreamWhile these plans will let you catch up on all the original and other global content like HBO series, the live sports tournaments will be available for free to all. Just like Jiocinema, users will not need a subscription to watch a livestream of any sports tournament, including Cricket, Tennis grand slams, Premier Leagues and more. However, will there be any payroll later, is a question to ponder. Emphasising the platform’s transformative role in sports, Sanjog Gupta, CEO - Sports, JioStar, said, “Sports in India is more than just a game—it’s a shared experience that unites millions. JioHotstar is revolutionizing how fans experience live sports, combining the best of technology, access, storytelling, and innovation with the fan at the heart of everything. Whether it’s the pride in India Cricket, the electric atmospherics of Premier League, passion for India’s indigenous sports or exposure for grassroots-level competitions, we will deliver a range of experiences, catering to both ‘lean in’ and ‘lean back’ behaviours across a billion screens.”He added that the platform is now “taking this philosophy beyond sports by bringing culture-defining live experiences to our audiences.” - Ends JioStar, the newly formed joint venture between Viacom18 and Star India, has officially launched JioHotstar, a platform combining JioCinema and Disney+ Hotstar. It’s bringing together an extensive catalogue of entertainment, sports, and cutting-edge technology to over 50 crore users. JioHotstar offers 3 lakh hours of content, including Bollywood and Hollywood blockbusters, exclusive originals, live sporting events, and anime. The platform also promises AI-driven recommendations, streaming in over 19 languages, and an immersive viewing experience. Speaking on the launch of JioHotstar, Kiran Mani, CEO - Digital, JioStar said, “At the core of JioHotstar is a powerful vision—to make premium entertainment truly accessible to all Indians. Our promise of Infinite Possibilities ensures that entertainment is no longer a privilege, but a shared experience for all. By integrating AI-driven recommendations and offering streaming in over 19 languages, we are personalising content like never before.” Unlike its predecessors, JioHotstar will allow users to stream free content without a subscription. For uninterrupted viewing, paid subscription plans start at ₹149 per quarter. Existing JioCinema and Disney+ Hotstar subscribers can seamlessly transition to JioHotstar without additional hassle. JioHotstar’s content lineup features an unmatched selection, including: • Top Hollywood Studios: Disney, NBCUniversal Peacock, Warner Bros, Discovery HBO, and Paramount • Regional and Bollywood Cinema: Movies and TV shows in multiple Indian languages • Exclusive Originals and Reality Shows: A mix of drama, thrillers, and engaging reality content • Anime & International Premieres The platform will also launch ‘Sparks,’ a flagship initiative that spotlights India’s leading digital creators. JioHotstar is set to revolutionise live sports streaming in India, offering ultra-HD 4K, multi-angle viewing, AI-powered insights, and real-time stats overlays. The platform will be the home for: • Cricket Tournaments: ICC events, IPL, WPL, and grassroots cricket • Football & Other Sports: Premier League, Wimbledon, ISL, and Pro Kabaddi League • Live Events & Concerts: Expanding beyond sports, the platform will stream global cultural events, following the massive success of Coldplay’s ‘Music of the Spheres’ live-stream. “JioHotstar is setting a new benchmark for digital-first entertainment. The platform is immersive, inclusive, and audience centric. While we have ended entertainment to offer, we are committed to continually innovate and elevate storytelling, ensuring that every Indian, regardless of language, discovers content they love,” added Kevin Var, CEO - Entertainment, JioStar, while elaborating on the entertainment offering. Emphasising the platform’s transformative role in sports, Sanjog Gupta, CEO - Sports, JioStar, said, “Sports in India is more than just a game—it’s a shared experience that unites millions. JioHotstar is revolutionising how fans experience live sports, combining the best of technology, access, storytelling, and innovation with the fan at the heart of everything. Whether it’s the pride in India Cricket, the electric atmospherics of Premier League, passion for India’s indigenous sports or exposure for grassroots-level competitions, we will deliver a range of experiences, catering to both ‘lean in’ and ‘lean back’ behaviours across a billion screens. We are now taking this philosophy beyond sports by bringing culture-defining live experiences to our audiences. The overwhelming response to Coldplay’s Music of the Spheres live-stream has set us off on this exciting new journey towards infinite possibilities.”
